SUMMARY

Regional Management Plan Subcommittee

Thursday, June 21, 2018

1:00 PM – 2:00 PM, via Webinar

Chair – Robert Smouse, City of Fort Worth

Vice Chair – Steve Funk, City of Plano

DISCUSSION

1. **Review of the Action Recommendation Survey.** The subcommittee will discuss the results of the Action Recommendation Survey and next steps.

The subcommittee reviewed the results of the survey. The survey had 11 respondents, and included 5 Regional Goals, 14 Objectives, and 63 Action Recommendations. The breakdown for the priority of the Action Recommendations is as follows:

- 25 High Priority,
- 30 Medium Priority, and
- 8 Low Priority.

The subcommittee discussed how some of the Action Recommendations are already supported by NCTCOG's day-to-day efforts, or will be supported by the Regional Recycling Project or other projects initiated by the Resource Conservation Council this biennium. The subcommittee also discussed the need to determine the steps to implement the Action Recommendations, including engaging additional resources, and utilizing non-Resource Conservation Council members as experts.

The subcommittee also discussed potential redundancy within the Action Recommendations. Due to the broad nature of the Regional Materials Management Plan, there is an opportunity for overlap within multiple Action Recommendations. NCTCOG will review the Plan for the potential to combine similar recommendations.

To determine next steps, the subcommittee requested a second survey in order to rank the Action Recommendations voted as "High Priority" in the first survey. This survey will rank the high priority Action Recommendations from 1 to 25.
